

Recording (Audio/Video) and Copies of Class Presentations Acknowledgment

This acknowledgment is only for students registered with Disability Services who are approved for audio/video recordings and/or copies of class presentations (i.e., PowerPoint slides) when available. Verification of this accommodation can be found on Academic Accommodation Letters or Accommodation Letters.

Under the Americans with Disabilities Act as Amended (2008), institutions of higher education must provide reasonable accommodations to students with disabilities and may not deny equal access to the institution's programs, courses, and activities. A student with a qualifying disability may, as a reasonable accommodation, be permitted to audio/video record class lectures using a computer, phone, digital recorder, smart pen, or other digital means for personal study (84.44 of Section 504 of the Rehabilitation Act of 1973 P.L. 93-112, amended P.L. 93-516). A reasonable accommodation for a student with supporting documentation may also include access to copies of class presentations (i.e., PowerPoint slides), when available, for personal study (84.44 of Section 504 of the Rehabilitation Act of 1973 P.L. 93-112, amended P.L. 93-516).

Audio/video recordings and copies of class presentations are for personal use and may not be shared or distributed to others or the public at large (including posting or sharing through the internet). Students may also share materials with the appropriate University office if they believe a violation of a law or University policy has occurred.

I have read and understand the above acknowledgment on obtaining copies of class presentations and audio/video recordings as an accommodation, and I acknowledge that I am required to comply with the above requirements. I understand that violation of this acknowledgment may be deemed a violation of the George Mason University Code of Student Conduct or Honor Code.

More information about the Audio/Video Recordings and Copies of Class Presentations Policies and Procedures can be found [here](#).
